## PERSONAL PROJECTS

### StudEase (10/2023 - 12/2023)

- Aimed at creating a comprehensive digital classroom. Facilitates students in uploading, querying, and seeking answers. Provides a centralized solution for academic resources. Recognizes the significant challenge students face in accessing proper study materials. Initiated the design and implementation of this project to bridge the gap and enhance the learning experience.

### Colour Guessing Game (04/2023 - 07/2023)

- Participants select the correct color from three (easy mode) or six (hard mode) color boxes. The game is implemented using HTML, CSS, and JavaScript. Designed as a relaxing and engaging activity to refresh the mind.

### Adventure (07/2024 - Present)

- Developed a website titled *Adventure*, designed to assist users in discovering popular travel destinations. The platform provided detailed information on various activities and highlighted the significance of key attractions. It served as a comprehensive guide to help travelers plan their visits efficiently. Through this project, gained valuable insights into renowned landmarks and cultural experiences.

## WORK EXPERIENCE

### Software Developer PSI Excel Exports

04/2025 - Present

Kolkata, West Bengal
